

Louisa Chapple - Panel Interviewing

#career

Tags: [career](#)

My Introduction

Hi, I'm Guy, I recently rolled off the grad scheme in GTIS, where I work in BCP (Barclays Container Platform). And it's a privilege to be speaking with Louisa Chapple today!

- (optional) - I was recently asked for a fun fact about myself, and I got teased for it. My fact is that I eat 4 different types of oats every day. Yes, 4 types. That is porridge oats, oat milk, oat biscuits, and granola.

Questions:

1. Will I need an introduction for this panel session?
2. Outro section? Who will be taking this part?
3. What is the highlighted question?

My questions to Louisa

1. Can you share any moments where someone's mentorship or support made a big difference to you?
2. What's a question you wish more early careers colleagues would ask senior leaders?
3. How do you think early career colleagues can build more visibility and influence within a large organisation?
4. If you could go back and give your graduate self one piece of advice, what would it be?

Thank you to Louisa

Thank you so much Louisa for your time, and for sharing so many useful insights here. I know that I'm gunna be watching this recording again, to take a whole lot of notes, so thank you.
